

Adani Foundation

ANNUAL REPORT 2013-14

adani™

A SILENT REVOLUTION

Let's Listen To The Silence...

Healthcare.... Served
Education.... Provided
Livelihoods.... Facilitated
Infrastructure.... Built

The space between the words is A Silent Revolution.

Simple.

At Adani Foundation, we call it A Silent Revolution.
For it is an evolutionary change in society without
affecting its organic continuity.

A revolution, that brings desired change,
without undesired fallout.

Also, it represents our way of stirring a revolution
without being vocal about it.

FEW OF THE NUMEROUS EXAMPLES OF A SILENT REVOLUTION,

spearheaded by Adani Foundation...

Nathabhai, who had lost both his kidneys, had to travel 150 km to a hospital in Gandhidham every week for dialysis. Today he gets his dialysis in his own town, free of cost!
A tear of happiness rolling down his cheeks is A Silent Revolution.

Slum dweller Ramiben couldn't even dream of providing school education to her son. Today her son is studying in class V at Adani Vidyamandir, a CBSE affiliated school.
A deep sense of fulfilment in Ramiben's life is A Silent Revolution.

Hasanbhai was completely dependent on fishing to earn his livelihood, leaving him unemployed for more than four months a year
Today he is better off thanks to the alternate livelihood.
Also, he married off his daughter with the help of extra earning.
A fresh energy in his life is A Silent Revolution.

The school children in Jamuniya village had to study sitting under a tree; bearing scorching heat, chilling winds and rains.
Today they have a nice school building equipped with all amenities.
A curvy smile on their face is A Silent Revolution.

This is the power and impact of A Silent Revolution.

ADANI FOUNDATION

Vision

To accomplish passionate commitment to the social obligations towards communities, fostering sustainable and integrated development, thus improving quality of life.

Mission

To play the role of a facilitator for the benefit of people without distinction of caste or community, sect or religion, class or creed – in the fields of education, community health and promotion of social and economic welfare and upliftment of people in general.

Approach

- To synchronise its scope and activities with the projects and goals of Adani group
- To adopt a pro people, bottom-up, participatory approach in rendering its services
- To formulate work plan and activities which are indigenous in nature and bridge the gaps in existing services delivered by the government, thereby avoiding duplication
- To make programmes and initiatives process driven, transparent and replicable in order to implement the same in all other sites to maximise public benefits

ADANI FOUNDATION

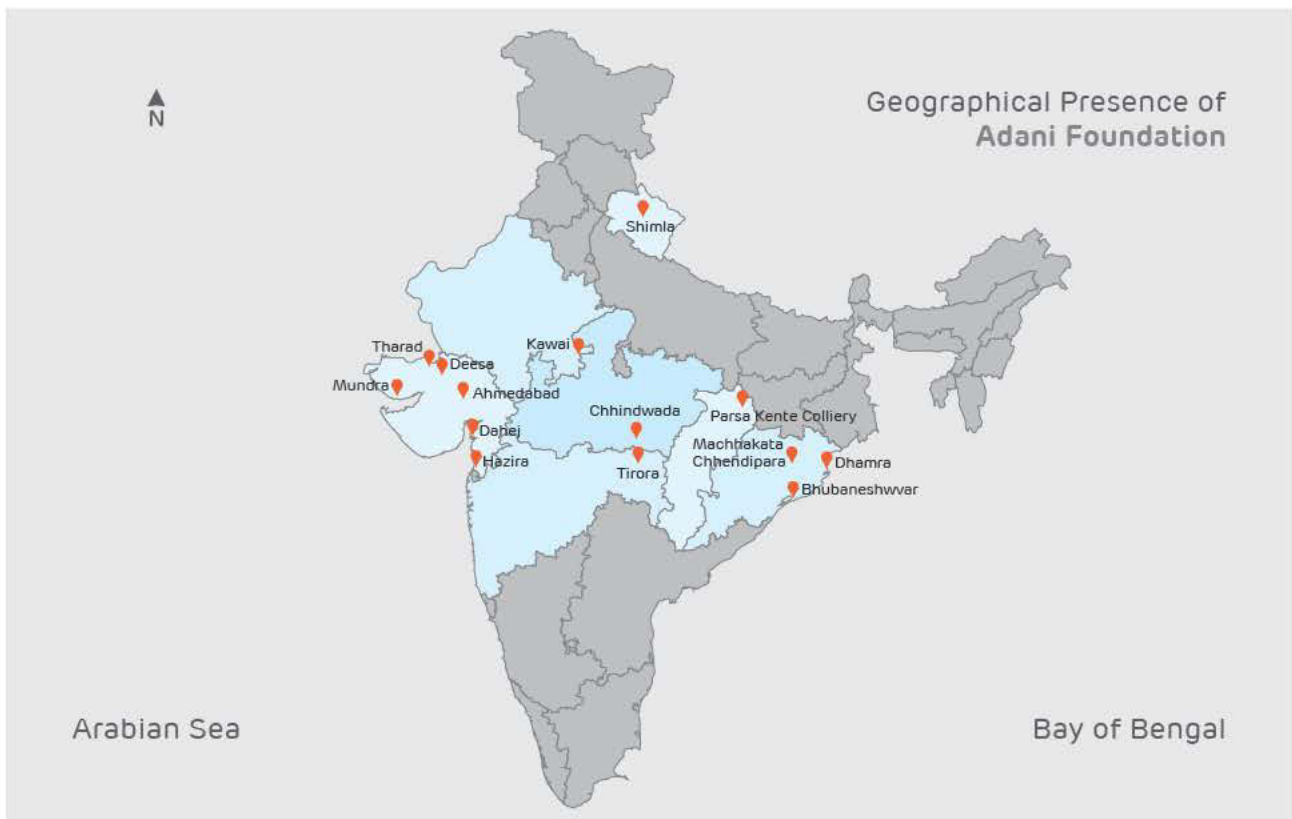

The Force Behind The Revolution

Any revolution presupposes a force behind. In this case, it's Adani Foundation – the corporate social responsibility of the Adani Group. Since its inception in 1996, Adani Foundation is in a relentless pursuit to bring about a positive change in the lives of people through compassion and empowerment. As the Adani Group enhances its footprint, the foundation plays a pivotal role in enhancing the quality of life in and around the communities the groups operates in.

Adani Foundation works towards facilitating appropriate processes to bring about equitable, gender sensitive and self-sustaining development in the communities it functions in. The foundation's chosen scope of work to build better lives at the grassroots are in the areas of:

- Education
- Community Health
- Sustainable Livelihood Development & Environment Initiatives
- Rural Infrastructure Development

A Silent Revolution was initiated in a few communities in Mundra, Gujarat. But as it gathered momentum, it gradually covered Maharashtra, Rajasthan, Himachal Pradesh, Madhya Pradesh, Chhattisgarh and Odisha. But it is the passion of the foundation's staff that really fuels this revolution. They are truly dedicated to ensure the success of the various initiatives undertaken, thereby transforming lives and making A Silent Revolution possible.

From the Managing Trustee

Dr. Priti Adani

The dawn of a new financial year not only calls for retrospection of all the past years but also introspection to shape up the coming year and future ahead.

Incorporated two decades ago, Adani Foundation has come a long way in bringing transformative changes to build an inclusive society. All these years, with rigour, vivacity and fervour, we have endeavoured to touch the lives of countless people through our various activities cutting across the gamut of education, community health, sustainable livelihood and rural infrastructure development.

It's more than heartening to observe that our resolutions, energy, determination and dedication have been silently converted into revolutions with our continuous and persevering actions.

Adani Foundation's efforts and accomplishments over the last few years have inspired us to set new benchmarks for an inclusive and sustainable development of the society on a whole. I want to underline here that in the forthcoming years ahead; the momentum of our actions has been envisaged to get accelerated further nationally. We plan to continue widening and deepening our efforts for engendering positive and profound societal impacts.

With an intent to create a better connect with the communities and eventually scale up our social footprints across the nation, we have conceived to arrive at a new philosophy and a manifesto for the Foundation which would reinforce in us the role of a seer, doer and a responsible leader more profoundly.

I must say each one of you has contributed to the optimum all these years and the commitment and hard work put in by all of you till date has been unparalleled and commendable. My deep sense of appreciation to our esteemed stakeholders (internal & external), the Board of Directors and associated bodies in particular, for their unstinted efforts in standing unite all through. I am also grateful to Ministries/Departments of Government of India/State Governments and client Organizations for their valued support.

Now that the future calls for an action with a unified force in single direction, I look forward to your support in Adani Foundation's journey in contributing to our nation's collective aspirations.

Dr. Priti G. Adani
Managing Trustee
Adani Foundation

A Silent Revolution is a transition from despair to hope, darkness to light, adversity to opportunity, deprivation to possession

If we want to reach real peace in this world, we should start educating children.

– Mahatma Gandhi

Education for all making it a reality

Education is a human right which must be accessible to everyone, without any discrimination. Children must be able to go to school, and thereby benefit from the same opportunities to build a future. On the other hand, the world as a whole has emerged as a knowledge society and education is at the core of it. Education can be the true catalyst to bring change in not just an individual but the entire community as a whole.

Education is a flagship segment upon which Adani Foundation works. We have adopted an integrated approach to improve the quality of education in the rural as well as urban areas, along the lines of UN's Millennium Development Goals.

Adani Foundation functions at various levels in the field of education with a dual objective of spreading education and improving the quality of education. We have adopted a model wherein we can address this objective effectively. On one hand, we establish and run our own schools where children belonging to unprivileged sections can avail quality educations at highly subsidised rates. On the other hand we lend support to the government schools by providing programme support, material support and infrastructural support.

Besides, Adani Foundation also gives educational assistance in terms of scholarships and grants to the deserving and needy students.

The Right to Education is fundamental and basic; and should be made accessible to all. Socio-economic factors should not become a hindrance in education of a child. Taking up this thought as a driving force, Adani Foundation designs and implements its initiatives on education front in a way that the very essence of transforming lives through continuous generation of knowledge, remains intact. We thrust on providing 'quality education' and a unique learning experience to meritorious young minds, who otherwise cannot afford it, owing to their disadvantaged backgrounds. The educational institutions run by the Foundation are "all inclusive" in nature and give concerted focus on various aspects of overall development of a student.

Carrying this tempo onward, the year 2013-14 witnessed some remarkable achievements in the area of education, across varied geographies we operate in.

AHMEDABAD

Adani Vidya Mandir – Sa Vidya Ya Vimuktaye

Adani Vidya Mandir at Ahmedabad is the flagship educational institute of the Adani Foundation. Established in 2008, it has been working to help achieve the national goals of access, equity and excellence in education. The school, in 2013-14 concentrated its efforts to incorporate activities in order to bring equilibrium between scholastic and co-scholastic activities.

Ranking Ahead - Scholastic Achievements & Activities

All 27 students of class 10 passed the AISSE CBSE Board examination with a whopping quantitative result of 100% and a qualitative result of 73% . Master Apurv Patel stood out in the list of the students, by scoring a CGPA of 10. A total of 36 students had appeared in Mathematics Olympiad and all of them cleared the same with flying colours.

Festivals – A Great Source of Learning

We at Adani believe that every festival in India has a historical reference. Hence, the school during 2013-14, in addition to religious festivals, celebrated Independence Day, Teachers' Day, Children's Day, Gandhi Jayanti, etc. with traditional grandeur.

Celebrating Sovereignty

The 65th Republic Day was celebrated with traditional patriotic fervour and zeal. Children made a wonderful display of cultural and sports activities.

Inculcating Scientific Temper

National Science Day was observed in

collaboration with Maa Foundation on February 27, 2014. The day-long event with varied Mathematics & Science activities, exhibition and movie shows ensured a 100% student attendance.

Widening Horizons through Field Trips and Picnics

Educational & field trips to various interesting places like Gandhi Ashram, fire station, post office, press, banks, R.O. plant, Science City, pharmaceutical factories, Adani Wilmar, Adani Port at Mundra, etc. were organized for students throughout the year.

Striking the Right Chord

Master Himanshu Barot and Ms.Shreena Parmar of Std X bagged the Winner's Trophy in the state level music competition in the duet singing category & further, Master Himanshu Barot also stood 2nd in the solo singing competition organized by the Times Group for a Radio show.

Art at Heart

During Kala Sarathi Art competition, drawing skills of our students were appreciated by visitors and a total of 11 students won prizes.

Hip Hip Hurray..!!

Regular coaching sessions in chess, table tennis, cricket, basket-ball, taekwondo and athletics have strengthened the physical fitness of our students who exhibited incredible performance in the district level Athletics Meet as well as in the Zyfest Sports Meet happened during 2013-14.

Celebrating Sports Day

The school celebrated Sports Week, which culminated on October 2, 2014.

Annual Function – Reinforcing Value Education

In 2013-14, the Annual Function was held on December 21, 2013 in collaboration with NTNL. The function reinforced the importance of value education.

Guest Lectures Give New Perspectives

Inviting personalities from various fields as guests for interactive sessions with our students is a regular feature at Adani Vidya Mandir. Amongst others, spiritual leader Swami Joseph Emmit accompanied by his colleague Swami Sudhakar Dass; ISRO scientist Dr. Ketan Shukla; Writer & Author Mr. Dipak Dalal; Officials from Adani Group etc. have given lectures and workshops to students during 2013-14.

Honing Skills – Workshops and Symposiums

Numerous students and teachers from Adani Vidya Mandir participated in various in-house and relevant external programmes conducted throughout the year at different platforms, like a symposium on Higher Studies at Anand Niketan School on Oct.4; a seminar for Vidya Setu - Bridging Young Minds at Rajkot on Sept.3; a workshop by Dr. Ratna Bilwani on "The Reasons of Scholastic Under Achievement" on Nov.19; a two day workshop on "Speaking and Listening Skills" during Nov, 2014; a workshop on Communication & Language Skill at Ahmedabad International School on Nov.30; a workshop on "Design for School" by Experts from Italy and Spain etc.

Competition is Healthy

In order to enhance the competitive spirit among students, competitions and activities like collage work, skits, cleanliness month, quiz, card making, cultural programmes etc., were conducted in 2013-14.

Health is More Than Wealth

Like every year, the school arranged for a thorough medical check-up of all the students. Parents were also requested to do the follow up as per the doctor's advices.

International Exchange Programs

In order to inculcate the love for reading amongst students, the school observed International Library month. In another project called Vidya Setu- Bridging Young Minds, our primary school students had virtual interactions with Parkhead Community Primary School, UK.

A Commitment Forever...

Adani Foundation promises to keep up the commitment and passion to provide quality education to the economically challenged students, forever. The teachers and students of AVM-Ahmedabad look forward towards a wonderful and an eventful year ahead.

MUNDRA

The Cradle of Our Social Endeavors

Since beginning, the foundation has been working very closely with the communities in Mundra, situated in the western coastal region of Gujarat. The foundation, aligning its programmes et al with the prime objective of targeting its prime beneficiaries including fishermen, follows a Need-Based Model to address the issues faced by the people living in the region.

Project Udaan

Project Udaan is a learning based initiative started by Adani Foundation with an objective to inspire young students to make it big in life. Under this project, a 2 day free of cost exposure tour is organized where in high school students are given a chance to visit the Adani Port, Adani Power & Adani Wilmar facilities to get an insight upon the large scale business activity carried out at each of them. This exposure tour, the Foundation believes would help the students understand their own potential, thus working towards the same. The Udaan project is a 365 days initiative with school students coming and visiting the facilities on an everyday basis. A special focus is given to students coming from rural areas. Started in 2010, the project takes around 130 students daily to the various

facilities. Till the year 2014, around 73,000 students from around 560 schools have been able to take part in the tours.

Adani DAV Public School – The School with a Difference

Established at Mundra in 2001, ADAV, apart from spearheading student academic and non- academic related programmes, also runs induction programme for teachers to enrich their skills. The year 2013 – 14 also started with workshops for the teaching staff.

Believing in “Student First”

During 2013-14, the Managing Trustee Dr. Mrs. Priti G. Adani felicitated the academic achievers of X and XII for the year 2012 – 13 .

Competitive Exams – Encouraging to Excel

The school gives exposure to the students from Class I to Class XII by encouraging and facilitating them to participate in various competitive exams such as Olympiads, ASSET, NTSE, Eduheal Finance Olympiad, Times of India Finance Olympiad, and Young Bulls Money Challenge etc.

Fun, Food & Friends at the School Fete

The school organized a fete on December 1, 2013. It consisted of food stalls, game stalls, horses and camel rides etc. for students and their parents.

Udi Udi Re Patang...

The school celebrated Makar Sankranti – the festival of Kites, with a lot of enthusiasm and cheer. They were also thrilled by the energetic dance, performed by a bunch of students of the school itself.

Celebrating Humanity

Celebration of festivals is obvious. But there comes an opportunity once in a year when we celebrate humanity. Therefore, the Human Rights Day was celebrated by raising awareness about basic human rights among the students.

Peace is the Only Way

The school celebrated International Peace Day to highlight the importance peace in our society and the world. Students also performed on the theme of "peace".

Celebration of the Republic Day

The Republic Day celebration on January 26 filled everyone's heart with patriotism.

11th Annual Sports Day

It was celebrated between January 4-5, 2014 and different sports like athletics, long jump, shot put and many other games were played by students.

Understanding Transactions

An activity called Business City was organized under the title "International School Meal Week" on March 1, 2014. The aim of the activity was to help students learn the concepts of banking, selling price, cost price, profit and loss in a practical way.

Participation Outside the School

In the first week of December 2013, our sports team went for DAV Sports Meet event at Mumbai. Many of our players got selected for national level.

Model United Nations

Adani DAV Public School participated in Model United Nations for the first time on December 21, 2013. Students participated in Navrachna International Model United Nations (NIMUN) which focused on human trafficking with a special emphasis on children.

Performing a Play

A play on George Bernard Shaw's My Fair Lady was performed by ADAV students.

Science Math and IT Exhibition-2013

A Science exhibition was held at Adani DAV Public School on December 1, 2013. Amongst other innovative models, students also presented with Sir C.V. Raman and Isaac Newton's inventions, history and great works.

Project 1600

On December 17, 2013, 43 students were taken for a visit to mangroves habitat to know about its benefits and challenges in its plantation.

Annual Day Celebrations

ADAV celebrated Annual Day functions spanning three days starting from October 23, 2013. Students participated with great enthusiasm and active participation.

Concerts and Tumbling Day – Pre-Primary Sections

To weave the lessons of physical fitness into the lives of students, we hold Tumbling Day, every year, for pre-primary students. Students show exercises on the stage with rhythm, music and using variety of props.

Adani Vidya Mandir, Bhadreshwar (AVMB) – Replicating Success

Experiencing the gratification of Adani Vidya Mandir at Ahmedabad, the same model was replicated at Bhadreshwar in Kutch. This school was started in July 2012 with an aim to help in providing education to the children of fishermen community and other penury-stricken parents of the vicinity and the area. AVM can further be differentiated from other institutions in terms of the non-academic services that it provides. Apart from academic assistance, the School also provides students with free transportation, uniform, textbooks, notebooks, breakfast, lunch and refreshments etc. The modes of teaching and interactions are also given a lot of importance. Through the school, a number of awareness camps and mobilization activities for the community are organized. Various events are organized (like father's

day, environment day) wherein parents could accompany the students to the school and be a part of the celebration. Adani Vidya Mandir, Bhadreshwar, holds classes till 8th class with 14 teaching & 13 non-teaching staff and a total strength of 359 students coming from Bhadreshwar and its vicinity areas.

The First Step to Schooling – Aanganwadi/ Balwadi

Aanganwadis have been set-up as an initiative launched catering to children between 2.5-5 years old and satisfying their basic nutritional needs and pre-school education. Upgrading the Aanganwadis, 'BaLA - Building As Learning Aid' has also been launched to encourage and provide nutritional supplements to Kishoris (adolescent girls) and women in Aanganwadis across all sites.

Support to Government Schools by Adani Foundation

Meena Communicative Initiatives (MCI)

In line with UN's Millennium Development Goals, an innovative project by the name of "Meena Communicative Initiatives", runs in government schools with the help and support of members, beneficiaries and volunteers. Under MCI, two groups of middle school students have been clustered as Meena Manch and Meena Cabinet to impart administrative skills and endorse a sense of gender equality amongst girl students.

Enriching Events – Meena Balmela / Balotsav / Camps

In 2013-14, during Diwali, drawing competition, hand stitching and handicraft training were carried out in various government schools. The products made by the children were exhibited at Meena Balmela/Balotsav and regular monthly meetings, exposure visits to Lokniketan Trust and meetings for planning were also conducted for education volunteers.

Learning the Smart Way – E-Learning Software Support

Launch of E-learning software at schools was announced in 2012 to boost teacher's efficacy and increase a student's interest and eventually knowledge.

Meena Mothers – Love for Learning

Under MCI, mothers were made aware of educating girl child and their social role in

the society through the concept of 'Meena Mothers' Meet'. They were made to understand the reasons for setting up a village education committee and its ultimate connection to other aspects such as nutrition, cleanliness, health, overall development and hygiene.

A Year of Talents

A Talent Hunt was conducted at a district level to showcase a child's talent in Art, Literature, Music and Sports. This event was not limited to students; teachers also participated in many of the competitions. Winners from pre-set blocks were selected to compete at zone level and finally at an all-blocks level. A total of 591 participants showed up.

Educational Vocational Guidance Fair

Educational Vocational Guidance Fair is one of the major multi-day events hosted by Adani Foundation at Mundra. This annual event houses stalls with information related to career and assistance in guiding them by assessing the aptitude and inclination of students.

Sponsored Events by Adani Foundation

Adani Foundation's efforts are not confined to the children of its own school alone. In 2013-14, the Foundation sponsored various events at government aided schools of Mundra region.

HAZIRA

Raising the Standard of Education

Adani Foundation not only aims at just providing education, but quality education. Hence, it has taken up initiatives to raise the standard of education in Hazira as well. It has provided support to 23 Anganwadis to provide quality education to the small kids. Also, it has taken care of BaLA work at 5 schools and 13 Anganwadis. Apart from this, Adani Foundation has sponsored events at the school and CRC level. It has also given material support to schools by providing them with uniforms, library books etc. Adani Foundation has done a tie up with Navchetan Vidyalaya as well and not only this, the Foundation has also given importance to the concept of E-learning in Hazira. It has started the E-learning program in all the 8 schools of Hazira cluster and around 2000 students have benefitted from this initiative.

Empowering Teachers and Students

On October 2, 2013, a programme was organized in Junagam Primary School with an objective to develop and enhance the interpersonal skills of the teachers; to inculcate good habits among

students; to enhance their confidence and to increase their level of knowledge about keeping the environment clean. Adani Foundation also conducted a Teachers' Training Workshop at Surat during this period and a total of 78 teachers benefited from it.

Material Distribution to Aanganwadis

Adani Foundation distributed 23 water filters, 6 fans, 10 chairs, 441 dishes and 8 food storage tanks for Aanganwadis at Hazira. This program was initiated on January 8, 2014 and 23 Anganwadis participated actively. It was organized in Junagam (Navchetan Vidyalaya) and 731 people benefited from it.

BaLA Work in Schools & Aanganwadis

As an outcome of the BaLA initiative, the enrolment of students has increased by 15% in 11 schools and by 10% in 23 Anganwadis in 2013-14. Also, more than 6000 students and 56 teachers have benefited through various educational activities of Adani Foundation.

DAHEJ

Girls' Education – The Key

At Dahej, Adani Foundation is seriously pursuing girl child education. The Foundation has undertaken multifarious activities to improve the quality of education and strengthen the existing education system by extending material and infrastructural support.

Small Steps Go A Long Way...

- In 2013-14, Adani Foundation, at Dahej, has contributed in the domain of education through following activities:
- Magazines distributed for reading corner at all schools of Dahej
- BaLA painting completed in all schools of Dahej cluster
- Distribution of Educational Kits to Dahej cluster government schools during Praveshotsav
- Tree plantation at Suva Primary School
- Disaster Management Programme arranged in Ambetha Primary School
- Forest Day celebrated in Jageshwar.
- Sponsoring sports activities in Lakhigam Primary School
- E-Learning Programme for schools of Dahej cluster.

TIRODA

Education Beyond Boundaries

Adani Foundation has carried forward the bright flame of education to other states as well. In its efforts to increase the standard of education, it has crossed the borders of Gujarat. Tiroda is located on the eastern part of Maharashtra and Adani Foundation initiated CSR activities for this site in 2010. The initiatives taken up by Adani Foundation in Tiroda are described below.

- Summer Classes on English/Mathematics at Chikhali, Kawalewada, Garada and Jamuniya village.
- Books distribution amongst students to build knowledge about the benefits of organic farming.
- Felicitation of top students of 10th and 12th std. from Tiroda block
- Activity bag and uniform distribution to students
- Desk bench support to Zila Parishad School in Khairbodi village
- Books for BPL students
- Supply of reading material to primary school students of Piparjhari village.
- Educational tour to Raman Science Center

- Exposure visit to Science Exhibition
- E-learning in Zilla Parishad schools of Gumadhwada, Thanegaon, Kanya Vidyalaya, Khairbodi and Kawalewada villages
- Mathematics Conference for Teachers of secondary school at Gondia
- International Girl Child Day observed in Khairbodi and Jamuniya village
- Bicycle Distribution Program; 175 bicycles were distributed in the nearby 13 villages to the female students of 8th Std and above.
- Adani Foundation provided water purifiers to Little Bird Municipal Convent School, Tiroda.

Talent Hunt – Bringing Our the Genius

A Talent Hunt was organized to enhance interest among students about sports and also to provide them an opportunity to showcase their talent in public. With the above objective, group dance, street play, public speech, chess competitions, science exhibitions were conducted in which, 259 students of 22 Schools participated.

Raising Traffic Awareness

A Traffic Awareness Program was conducted in collaboration with Highway police and Police Station, at Tiroda.

KAWAI

Spreading the Light Further

As "Education for all" is the mantra for Adani Foundation, one more territory where the Foundation has taken initiatives on education, is Rajasthan. Adani Foundation, at Kawai, has been running several activities in the domain of education and the activities during 2013-14 include:

- Sponsoring Sports Activities in all 41 adopted Government aided schools
- Exposure visits to power plant, for Children of Government aided schools
- Sponsoring annual function at Jawahar Navodaya Vidyalaya, Kawai
- Organizing Science fair at Jawahar Navodaya Vidyalaya, Kawai
- Winter wear distribution in 41 schools of Kawai block
- Construction work in adopted schools
- Distribution of computers in Government aided schools

SURGUJA

Extending the Power of Knowledge

By and large, under the education sector, the first step of Adani Foundation is to establish schools which provide quality and free education to the children coming from deprived families and region. In line with this, the foundation runs Adani Vidya Mandir, in the Surguja district of Chhattisgarh.

Adani Vidya Mandir, Surguja

Adani Foundation initiated with the establishment and implementation of Adani Vidya Mandir School in Salhi village of Surguja district. This is a CBSE English medium school and runs classes till Class 3 with a strength of 204 students. The school started its functioning from July 22, 2013. Besides, allied activities on occasions like Independence Day, Children's Day, Republic Day etc. have been conducted till date.

An AVM –School Management Committee (SMC) has also been formed in Adani Vidya Mandir which overlooks the functioning of the

school in each quarter and gives suggestions for proper functioning of the school.

International Girl Child Day Celebration

A three day program was organised to celebrate International Girl Child Day in one of the Kasturba Gandhi Balika Vidyalayas situated at Udaipur block and 15 government schools in project affected villages..

Going Soccer – Adani Surguja Football Academy

The residential football academy is situated in Ambikapur town of Surguja district for free training to the youth of Surguja including children of the age group of 10-14 & 15-17. Though, at present, the total number of players admitted and accommodated in the campus of football academy are 40, the academy would be extending services to the aspirant players to represent at district level; state level and national level football competitions.

Adult Education Program

Adani Foundation has taken up Government Adult Education Programme in its project affected villages. The adult education program is run by Adani Foundation through ten centres. The target of the program is to annually educate 100 village people living in the project affected area. The main objective of the program is to help them attain basic literacy and prepare them to appear for the examination conducted under Sakshar Bharat program.

CHHINDWARA

A Big Vision for Tomorrow

Adani Foundation has initiated educational activities at Chhindwara in Madhya Pradesh. As it is said, small is big, Adani Foundation has distributed school bags to 450 students in Thwariteka and 1550 students in Heverkhedi villages of Chhindwara.

The roots of A Silent Revolution lie in vision, compassion, commitment and solidarity. It is bearing the fruits of hope, dignity, self-respect and happiness.

It is health that is real wealth and not pieces of gold and silver. – Mahatma Gandhi

Creating Healthy Communities

Health is basic for any society to grow. Particularly, our society is facing many challenges in terms of healthcare. Even today, accessibility of proper healthcare services is a dream for a large number of population. Right from reducing maternal and infant mortality to the treatment of fatal diseases like cancer, there's a long way to go.

At Adani Foundation, we believe that health is a shared responsibility, which involves equitable access to essential healthcare services. Hence community health is another area where we put thrust on inculcating a health seeking behaviour and ensuring availability of quality healthcare services to the remote areas.

Our motto is "Health for All". To fulfil this, the foundation runs Mobile Healthcare Units, Rural Clinics, special innovative need based projects and a variety of health related camps. These initiatives have gone a long way in making quality healthcare accessible to the community. Besides, the Foundation extends need based support to government/community/primary health centres located in isolated areas.

The Adani Foundation adopts a holistic approach while addressing the key issues and ensures that the most marginalised sections of society in rural and urban areas are covered under the ambit of its health initiatives.

Availability of quality healthcare, particularly in rural areas, is a serious issue. Affordability is another serious aspect that engraves the situation for the poor rural populace. Adani Foundation has adopted an integrated approach to address this issue. We focus on providing quality and affordable healthcare to the rural people of the region where we operate in, and give infrastructure support as well. With our mobile healthcare units and installing local clinics, we have made accessible quality healthcare at their doorstep. Also, we extend medical aid to senior citizens through our special schemes. Adani Foundation aids underprivileged people by providing them with good medical facilities either free-of-cost or at subsidised rates.

The Foundation in 2013-14 has carried forward its healthcare initiatives with a dictum of spreading awareness and facilitating prevention and cure. This has brought about a qualitative change in the lives of the rural populace.

AHMEDABAD

Swasthaya Sahayata – Medical Aid for Serious Ailments

Through this scheme, Adani Foundation provides medical assistance to the people coming from disadvantageous section of the society, for diseases such as HIV/ AIDS, diabetes, neurological disorders, heart diseases, kidney problems, paralysis, cancer etc. The aid includes taking care of the financial implications, medication, dialysis etc.

MUNDRA

Healthcare on Wheels

A total of 33 villages were covered by two mobile healthcare units (MHCU) during 2013-14. The MHCUs have completed 56 visits per month and attended to 61,477 patients. Seven Rural Clinics have reached out to 49,339 people which make the total number of beneficiaries to 110816, making the best healthcare available to the people at their doorstep.

Wellbeing at Thresholds

Eight remote locations within the villages of Mundra taluka have well-designed functional clinics with a qualified medical practitioner, to provide the much needed medical assistance to the people of the region. At these dispensaries, medicines and treatment are also provided at no expense to all. Adani Sterling Hospital Mundra is gaining popularity amongst rural population as around 45% patients came from villages referred by Adani Foundation.

Support to the Indigent

Under this program, medical support has been given to 214 patients starting from May 2009 to June 2013. During 2013-14, more than 40 cases were handled wherein poverty-stricken patients were extended financial support.

Adani Vadil Swasthya Yojna – Free Medical Treatment for the Elderly

Health Card to Senior Citizens - "Adani Vadil Swasthya Yojna" at Mundra is aimed at supporting the senior citizens (any individual above 60 years of age) through an innovative 'card' where in a card-holder will be able to reap benefits of any medical treatment at any of the Adani clinic or Adani Sterling Hospital, Mundra. In 2013-14, two annual meetings were held for assessment of health card holders; the first one was attended by 783 card holders from 21 villages and 46 panchayat members. The second one was attended by 967 card

holders from 25 villages and 62 panchayat members. A total of 3,077 health cards were issued throughout the year and a total of 8,345 transactions happened at hospitals. In 2013, a total of 633 new senior citizens enrolled for the health card, while 1,464 opted for renewal. Apart from that, fifteen camps were conducted in 16 villages as part of the project.

Regional Attention – Kidney Stone Detection & Prevention

Due to high levels of salinity in drinking water, people in the community are prone to developing kidney stones. To address this pressing health issue, a project named "Kidney Stone Detection and Awareness" was launched. During 2013-14, 318 patients participated in the screening camps, 248 were examined for kidney stones; 130 were referred for sonography; 78 were prescribed medication; 106 referred for surgery and 104 underwent surgery.

Total Sanitation Campaign

Sanitation is directly linked to health. Adani Foundation at Mundra helps to raise awareness of the people regarding hygiene issues, use of toilets, sanitary practices, etc. and urges people to reach a 'Nirmal Gam' village status. It encourages the community to keep their own surroundings clean. In 2013-14, we have extended material support for toilet construction in Bhadreswar village of the block.

HAZIRA

Reach out to 7,000 people of 11 villages.

Special Camps & Programmes

A special dental camp was organized by Adani Foundation in which 104 people were checked and 15 people underwent treatment. Furthermore, Adani Foundation took care of 163 patients in a general medical camp. In order to create awareness among people about health, hygiene & malaria prevention, a rally was organized to reach out to 7,000 people of 11 villages. Correspondingly, the Foundation organized blood donation camps at two different places where 256 people donated blood. In addition, AF also ensured that 731 children of 23 Anganwadis were provided with nutritional food twice a week.

HIV-AIDS Day Celebration

The objective of this celebration was to create awareness among people about HIV-AIDS and its preventive measures. The celebration took

place at Adani port, Hazira and also in Junagam, Suvali, Rajgari, Vasava, Damka, Ichchapor, Hazira. Along with 3,000 villagers, a total of 80 laborers and truck drivers were benefited.

De-addiction Awareness Programme

In order to spread awareness about the harmful effects of addiction amongst the people of Hazira, programmes were organized at various places of the block, like Suvali, Rajgari, Damka, Vasava, Ichhapur, Barbodhan and Junagam. A street play was enacted to reach out to 1,430 people in total.

DAHEJ

Special Medical Camps

A Special Medical Camp was organized by Adani Foundation, Dahej, for pregnant and feeding women. A total of 245 women from all the villages of Dahej cluster were benefitted from the medical camp. As another health initiative, a General Medical Camp was also organized in which, a total of 285 patients benefitted. The General Medical Camp was held at Suva village of Dahej. Also, a De-addiction Awareness Programme was organized in Jageshwar, Luvara, Suva and Ambetha which included street plays by students of Navchetan Vidyalaya, Junagam-Hazira.

Rakt Daan - Maha Daan

A Blood Donation Camp was held at Adani Port, Dahej and 130 people donated blood in this event. All those who donated blood were given 130 Adani Logo caps for motivation.

Other Community Level Events

Other Community level events including meetings with PHC coordinator; organizing visits to Aanganwadis at Dahej, Luvara, Jageshwar and Ambetha for getting details about malnourished children; meeting with Asha workers and taking their reviews on General and Special Medical Camps; meeting with women for better health practices etc. regularly take place.

TIRODA

Primary Healthcare Interventions

Tying up with Help-Age India, Adani Foundation provides primary health care services in 17 villages via a Mobile Health Care Unit (MHCU). This unit runs weekly in 22 locations at a defined time and place. Till March 2014, MHCU successfully attended to a total of 32,807 patients. This service is a boon to women, children and elderly.

Medical Assistance Programme – Support to the Needy

Under this programme, Adani Foundation provides medical grant and medicine support to the needy. During the year 2013-14, 14 patients were given financial support for their treatment. To complement this programme, a vehicle support program was also launched to help people avail the services provided under various government schemes. During the year, 575 needy patients benefited from this service.

Anaemia Reduction Programme

Low iron and haemoglobin level among women in India is the most common and serious issue. Adani Foundation runs a special programme to

combat this. By the end of 2013-14, around 1143 adolescent girls went through the entire process of Anaemia Reduction Programme including pre and -post check- up and treatment sessions. At Tiroda, Anaemia prevalence was as high as 80%. A 360 degree approach was adopted to combat Anaemia via flagship Anaemia Reduction Programme. The programme comprised large scale awareness campaigns, iron-folic tablets distribution, kitchen garden support and peer support meetings. It has resulted in curbing anaemia by around 50%.

Awareness Programmes

A number of awareness programmes were initiated by the Foundation. One of them was creating wall writing in Gumadawada village to emphasise on the benefits of clean environment. A total of 165 messages and creative art were made. Other awareness programmes included a street play on de-addiction, which was organized in Chirekhani village wherein 500 people participated. The Foundation also organized street plays for HIV/AIDS Awareness at three different locations in Tiroda, sensitizing more than 2,800 people on the issue.

KAWAI

Mobile Health Care Unit (MHCU)

These mobile vans has recently been started to cater to the primary health based needs of the people in the remote rural areas.They are equipped with trained doctors and medicines.

Activity for Laborer's Children

Another activity that takes place daily is the provision of milk and biscuits to the children of the laborers residing nearby. A Balawadi is run by the spouses of the Adani employees who provide milk and biscuits to these children on a daily basis. Sometimes, they also get heavy meals with them to feed these children. This small initiative has been taken up to ensure some extent of nutrition levels in these children.

Awareness Programmes

Owing to the prevalence of water borne diseases, the community was mobilized about the importance of preventive care such as pyrethrum spray. Interesting programmes like Traffic Safety Week was celebrated in the form of a rally to create awareness about traffic rules. Further, to make school children aware of the benefits of cleanliness and hygiene, a program based on celebrating hand wash day was organized at the local level. An awareness program on HIV/AIDS was also conducted by

Adani Foundation as an initiative to make people aware about the reasons behind occurrence of this disease and issues pertaining to preventive care against the virus.

Supplying Safe and Hygienic Drinking Water

Adani Foundation took the initiative of providing safe drinking water to the people living in Salpura basti, where there was unavailability of water. Around 150 families benefitted from this programme.

Blood Donation Camp Organized

A blood donation camp was organized on June 24, 2014. More than 800 units of blood were collected and donated. This activity was organized by Adani Foundation and the objective was to provide blood to the needy and help reduce to some extent the scarcity of blood among the patients.

Rural Medical Camp

A rural medical camp was organized by Adani Foundation, Kawai to provide free treatment to the village people. It was organized with the help of Govt. Civil Hospital, Baran in all the four clusters that come under the area where AF, Kawai actively operates.

SURGUJA

Health Check-up Camps

Adani Mining Private Limited (AMPL) and Adani Foundation are jointly running camps for health check-up and distribution of free medicine facilities to all rural population in seven project affected villages. The camps are facilitated by appointed doctors and other necessary medical equipment and requirements. These health camps are conducted in several villages such as Salhi, Ghatbarra, Parsa, Kente, Basen, Hariharpur and Parogiya. A total of 268 health care visits were organized and 3,316 patients were treated during the year along with preventive care aspects.

24 Hour Free Ambulance Facility

The 24 Hour Free Ambulance Facility has been initiated by AMPL and Adani Foundation to provide people with timely services in cases of topical health care needs. The Ambulance facility is extremely useful for referral cases to Udaipur, Ambikapur, Raipur, Bilaspur and other adjoining towns. It should be mentioned that the ambulance is well equipped with all the necessary equipment and machinery along with the experienced medical staff to bring the patient to the CHC and district facilities for emergency services. Apart from emergency medical services, it also increased the institutional deliveries from village area. The health workers in the project affected villages ensure timely ANC (Ante-Natal Care) and PNC (Post-Natal care) check-up of Pregnant Women through village health camp by Medical Doctors.

Mosquito Net Distribution

The activity was initiated after realising that the cases of malaria and related diseases were quite common in area. The programme was initiated in various phases. The first phase largely pertained to creating awareness and spreading information about the diseases and its precautionary care. Various means were adopted such as poster, pamphlet distribution, etc. to carry out the program. The subsequent phase comprised distribution of medically treated mosquito net as certified by WHO which is a precaution and preventive action to fight against the endemic. The distribution was made to 1,250 families of project affected villages which support the people to curtail the disease. As result of the mosquito net distribution activity, the occurrence of diseases like malaria and dengue could be seen to dip down a little..

PRAYAS – A Programme for Adolescent Girls

Multifaceted awareness programs were organized for adolescent girls with specific emphasis on their overall health aspects. 'Prayas' was organized during December 2013 in Hariharpur village. It is interesting to note that in this program, families of Adani Foundation employees were involved as a support staff to create awareness among the people of the community. A similar program was conducted in Hariharpur village, with an objective of spreading awareness and information regarding health related problems in that particular targeted group.

HIMACHAL PRADESH

Adani Foundation, Sainj, is dedicated towards its healthcare activities in Shimla, Kullu and Kinnaur districts of Himachal Pradesh.

During the financial year 2013-2014, Adani Foundation Sainj visited 31 villages of block Kotkhair, Theog, Chopal, Jubbal, Rohru, Chirgaon, Rampur Bushehr, Kumarsain, Aanni of Shimla and Kullu districts in Himachal Pradesh through mobile health vans. Through these, around 6,799 patients were treated and health centres have catered to 671 patients.

Adani Foundation Sainj also organized 27 medical camps in different villages of Rampur, Rohru, Theog, Aanni and Kotkhair blocks of Shimla and Kullu districts of

Himachal Pradesh. In these medical camps, 1,816 patients were treated.

Adani Foundation Sainj is penetrating and providing its health services to all people including growers, migrant labourers of Nepal, Bihar and Ladakh in various villages mostly looking after senior female citizens, children and babies.

Besides, Adani Foundation Sainj is providing full time medical support to all the employees of Adani Agni Fresh and the labourers who are working in the company and is also treating the local people of Sainj Panchayat through health centres. The Foundation is supported by local panchayats and some NGOs to organize medical camps in their panchayats.

A Silent Revolution is a stimulating excursion into dreams getting realised every day.

There are people in the world so hungry, that God cannot appear to them except in the form of bread – Mahatma Gandhi

Empowerment through Sustainable Livelihood

Our social endeavour started with a sense of responsibility, which has transformed into a passionate journey. A small humble initiative has picked up the momentum of a Silent Revolution.

The Adani Foundation's one of the elements for social development is empowering sustainable livelihood. For economic self-reliance and financial freedom is central to human dignity. We constantly strive to create opportunities for the community members to earn their sustenance and grow. Skill development is another area of focus, for it helps in getting better opportunities to earn sustainable livelihood.

Our strategy in this sector is to analyze the employability of the local youth, identify the gaps in capacities and available options of livelihood generation, profile the existing community institutions, develop the capacities of people and build the necessary links.

Building Self Help Groups, encouraging people's participation and skill development training are the key components which have accelerated the Silent Revolution.

iving with dignity is as critical and important as the life itself. A man has to have some work on his hand to sustain his own life as well as of his dependents. Earning sustenance is basic to a person's growth and well-being. But not all get the opportunity to earn livelihood. Hence Adani Foundation's one of the four core components is Sustainable Livelihood Development. Our Sustainable Livelihood Projects have been launched to ensure financial independence through building local partnerships, providing diverse livelihood avenues, inculcating the attitude for savings, equipping to earn and updating local skills by making use of existing resources to encourage self-reliant lifestyles. Participation is encouraged by launching specific projects for different communities like farmers and cattle owners, youth and women. Besides, Self Help Groups (SHGs) are established to discuss need based issues and capacity building for the community.

In 2013-14 the Foundation strengthened and accelerated its activities under Sustainable Livelihood Development providing members of the community with more livelihood opportunities and income generating options.

MUNDRA

Fishermen Community Development Project - Aiding the Livelihood of Fishermen

Mundra is a home to a large fishermen community. Both, their occupation and living are along the coastline. A project titled "Fishermen Amenities" was launched under sustainable development of the fishermen community. The decision regarding the amenities provided was taken after meetings, discussions and formal requests of the community members. Meetings were held with every member of the family to understand each individual's need and cater not only to the men but also to the women and children of the community. Fishing material support was also provided by the Adani Foundation at Mundra as per the requests of Pagadiya fishermen. According to their needs, fishing nets, ropes, buoys, ice boxes, crates, weighing scales, anchors, solar lights etc., were provided.

Educating the Unprivileged

Several steps have been taken by the Adani Foundation to sustain education of students who cannot afford to pay fees. Problems have been addressed with financial aids and various awareness programs. Steps were also taken to address the problems of transportation. Balwadis were initiated to increase awareness on health and hygiene, regularity etc. among the kids at an early age. Exposure visits to Adani ports and other locations are also planned for adults so that they are motivated and learn more about the company. During 2013-14, out of 329 total students, 52 were given scholarship, 34 were given computers and electrical training, 10 were supported with cycle support and 233 were taken for exposure visit. At four habitats, 176 children availed benefits from balwadis and vehicular support. 127 participants were taken for exposure visits to Adani Port, Adani Power village and Adani Wilmar.

Employment - Mangrove Plantation

Mangrove is immensely beneficial to the mankind as well as environment. Engaging the local community in mangrove plantation can be a win-win situation. Hence mangrove plantation was introduced as an alternative source for generating income. Technical assistance was provided by Horticulture Dept. of APSEZ and 100 hectares were given for plantation and more than 100 fishermen families were benefitted. This was carried out during seasons when fishing was unproductive, termed as 'off season' in the fishing community. In order to strengthen pagadiya fishing and provide financial assistance to fishermen, 37 individuals were supported for income generation. Support was provided for coding as well as painting of boats to 180 beneficiaries. 1480 beneficiaries availed benefits through mangrove plantation during professional off season.

Ensuring Safety for Fisher Folks

The fishermen stay at sea to earn their livelihood and thus, this puts their lives at risk. Distance Alarm Transmission System – DATS project was introduced in order to promote safety of the fishermen. 50 people have benefited from the initiative this year.

Awareness Campaign and Workshops

Several activities are carried out to inculcate respect for the environment among community members.

- Film screening for social awareness
- Cycle Marathon
- Disaster Management Workshop
- Tree Plantation Drives

Raising Awareness about Modern Agriculture Techniques

Apart from monetary and material support, awareness was created regarding modern farming techniques such as drip irrigation method to promote high agricultural productivity with limited water resources. Cattle owners were also told about the importance of organic manure in agriculture. One of the major initiatives under this project was 'fodder support' for cattle to benefit the cattle owners.

The Fodder Support Program

The fodder support program benefitted 53 farmers as fodder was purchased from them. A total of 24 villages were covered and an average quantity of 1000 Mann fodder per day was supplied for around 22,875 cattle. Adani Foundation also initiated the fodder cultivation program in the region, and developed the very organic fodder supply chain in Mundra taluka, where availability of fodder is one of the major issues in animal husbandry.

Krishi Mela (Farmers' Education Programs)

To spread information, education and awareness about the modern techniques of agriculture, Krishi Melas were organized. Topics like horticulture, relevance of drip irrigation, dairy technology were talked about by the subject experts.

Women Empowerment Project

The project of 'non-woven bags' is a sustainable project which allows the community to reap two fold benefits as it shuns plastic as a material for

bags making and gives the women an alternative livelihood. Several other awareness activities concerning women and their safety were also conducted. A total of 130 women from 13 villages made 130,000 bags and of those, 54,000 bags were sold. A total of 22 women visited the Police Station and acquired information on various crimes, abuse and misconduct towards women.

Kaushalam Balam - Adani Skill Development Centre (ASDC)

- ASDC conducted many orientation and motivational workshops between October 13 and March 14, namely,
- Orientation Program for technical training
- Orientation Program for Spoken English and Basic Computer at ASDC centre
- Orientation Program for IT at Old Port – 32 people were present in this program
- Orientation Program for tailoring at Mundra (for women)- 47 women were present

Also, there were various technical trainings organized with the support of HR- Technical APSEZ, APL and ITI, some of which are as follows:

- RTG-Crane Operator 3 Batch Simulator Training
- RTG- Crane Operator 3 Batch Job Training – 37 students undertook the training
- Checker Training
- Gate Keeper Training
- Maintenance of Electrical and Instrumentation and maintenance of FCC Plant – 17 have already been trained, while, presently, 16 are being trained
- Industrial Electrical Work Training
- O & M Coal Handling System Training

Apart from the technical trainings, there were various non-technical trainings being taken up as well such as basic English training, tally ERP 9, IT- Basic Computer training. The beauty of this training is that after the training is over, certificates are provided to the trainees. 96 students were awarded by the HR APSEZ head, HOD of ASDC and B.Ed. College Principal.

ASDC COURSE WISE STATUS 2013-14

Support to the ITI

To promote skill building among youth, the Adani Port and SEZ through Adani Foundation, during 2013-14, equally divided the allotted budget among Deesa and Mundra. In Deesa, infrastructure development i.e. campus roads etc. was done and in Mundra, material support for existing infrastructure i.e. Benches, tables, chairs etc. were provided.

HAZIRA

Fishermen Support Program

This program was organised in Halpatisamaj of Hazira Block on February 26, 2014 and 66 families have benefited from it. Adani Foundation conducted this program in a community hall in Suvali and provided fishing net kits to the fishermen.

DAHEJ

Providing Assistance to Fishermen

This programme was held on March 25, 2014 and focused on providing basic fishing amenities to the fishermen mainly from the "Halpati Samaj" with fishing nets and other requirements.

Participatory Rural Appraisal

A Participatory Rural Appraisal was done on March 12, 2014 with the objective of –

- Identifying the village problems and gaining knowledge about existing resources in the village.
- To enhance awareness about village scenario and to collect data depicting the overview of villagers on existing issues and on ways to resolve them.
- Socio-Economic survey of Indira Aawas & Sardar Aawas at Lakhigam, to know about the social & economic condition of villagers and to identify the existing resources in specific areas and to collect general and basic information about the requirement of these resources.

Tools used for this survey were social mapping, resources mapping and socio-economic survey. A total of 125 households were a part of this survey.

TIRODA

Biogas Construction Programme – Protecting Environment, Caring for Health

During the year 2013-14, Adani Foundation constructed 50 biogas plants in 50 households. It is expected to save about 5 tons of firewood in each household every year. Moreover, it will also reduce the respiratory problems in women. The community also contributed Rs. 4000/- per household as their share in the project. Adani Foundation also hosted one day training program in collaboration with Khadi Village Industries Commission (KVIC). These training programmes were conducted in Chirekhani, Kawalewada and Jamuniya village. The topics covered during the workshop are – use of biogas, precautions to be taken at the time of cooking, cleaning, everyday feeding dung in the biogas and covering slurry chamber. A total of 90 participants attended the training from different villages.

Rain Water Harvesting – Watering the Agriculture Economy

Rain Water Harvesting through excavation of Farm Pond is nothing but just to utilize an indigenous knowledge of farmers in a scientific manner to harvest surface run off of the agricultural land. The water management intervention has the potential to evolve as a catalyst to enhance the water use efficiency and thereby, increasing agriculture economy of the water stressed villages in the Tiroda block of Gondia district. Adani Foundation has constructed 43 Farm ponds of size 15 x 15 x 3 meters of capacity to store 445 cum of water, thus, benefitting 26 households.

Rice Intensification System

Adani Foundation organized exposure visit and training programs to make farmers aware about the paddy cultivation called Systemic Rice Intensification (SRI). The farmers were taken to Krishi Vigyan Kendra (KVK) to learn the SRI method and how to use this method in farming. After this exposure visit, farmers from

Kawalewada, Chirekhani, Chikhali, Bhiwapur and Jamuniya, were motivated to cultivate paddy with SRI method in 1 acre of land. A total number of 81 farmers were allotted land. Thus, this demonstration directly benefitted in 81 acres.

A total of 18 training programs were also conducted. Under the technical training program, farmers were imparted training on raising bed, transplantation of the sapling, vermin compost and organic solution making. Farmers were provided drums for making organic solutions. 50 kg of vermin composting was also provided to each farmer.

Youth Fair for Technical Training

The youth fair was organized to orient youths about the job opportunities in construction field and to make them aware about the schemes of Construction Skill Training Institute (CSTI) promoted by L&T group. During the year 2013-14, 30 participants were sent to CSTI. Adani Foundation supported in travel and stationery expenses of the participants besides motivating them to participate.

Go-Vigyan

Vidarbha's dairy activity is not well developed due to lack of adequate water resources, poor marketing channels and low traditional knowledge about rearing cattle. Therefore, livelihood in Gondia is entirely dependent on agriculture and the small and marginal farmers have very low resilience to deal with crop failure. In order to promote the dairy activity as an alternate source of livelihood in this region, the government has been promoting the high milk yielding exogenous species of cows as part of the relief package for the needy farmers. However, the harsh dry climate and the non-availability of green fodder all-round the year, is the biggest challenge for the survival of these cows. With the exogenous cows being unable to adapt with the local environment, the farmers end up having spent a lot of money on expensive veterinary services. Even then, there have been many instances of exogenous cow dying because of the heat or being unable to yield the expected quantity of milk. To change the mindset of the people for not keeping an exogenous cow and to nurture indigenous cow, a series of training programs are being conducted with Go-Vigyan Anusandhan Kendra Devalaper.

Adani Foundation also conducts follow-up meetings for the outcome of the training programme. One such meeting was conducted in Kawalewada village in which it was found that 4 women started

making tooth powder and 6 women started vermin compost and used it for raising bed for paddy.

Promoting Vermi-composting Beds

After the training program was conducted in Go-Vigyan Anusandhan Kendra Devalaper, farmers were motivated to make vermin compost. Adani Foundation provided earth worms and fly ash to mix in the vermin compost. A total of around 200 participants got benefitted from the training programs.

Computer Plus Training Program

To provide computer skill to the rural drop out students looking for career opportunities in rural BPOs, Computer Plus Training Program has been designed. The duration of the training program is three months and includes two months of class room training and one month of on-the-job training. During 2013-14, a training program was concluded on March 6, 2014.

Baat Hamari : Women's Meet

A women's meet was organized in Kachewani village in which around 900 women participated. During the meet, women were made aware about their rights and schemes. The schemes focused on women empowerment and health. On this occasion, women sports were also organized in which 75 women took part.

Going Green : Social Forestry in the Villages

Adani Foundation planted 5762 plants in the nearby 18 villages. It also tied up with Government Irrigation department and mobilized 5000 plants of small heights. Apart from all these plants, big height plants were also planted in the villages so that; the plants will be stable in the minimum time possible. Like every year, this year 825 tree guards have been provided to the villages to protect plants.

Workshop on Fly Ash Utilization

This workshop was conducted for villagers/ Gram panchayat representatives for potential identification and to obtain several NOCs from the Gram Panchayat authority. The main objective of this program was to explore the potential of Fly ash brick manufacturers and to make them aware about the program. During the month of January 2014, another workshop was organized by the district administration, APML and Adani Foundation for the coordination between fly ash manufacturers and government agencies. A total of 150 participants attended the coordination meeting.

Animal Vaccination Camp

Adani Foundation organized Veterinary camps for vaccination and all kinds of treatment in 17 villages in association with the Govt. Animal Husbandry Department.

Various services such as vaccination, first aid, de-worming, infertility treatment etc. were provided to over 8509 cattle during the month of February and March, 2014. Mineral mixture was also provided to 1767 cattle to increase the milk yield.

LPG Connection to the Forest Villages

To reduce the drudgery of women and to save biomass of the forest, Adani Foundation took the initiative of providing new connections to the rural households of the forest boundary villages. Adani Foundation has provided free cooking gas connections to 226 household of Sarra Village adjacent to Nagzira Sanctuary. The distribution of Gas connections also included Gas Stove. It is expected to save 8.5 lakh Kg of wood per year. Adani Foundation will also provide four times refilling to the beneficiaries. Last year, Adani Foundation had provided the same free cooking Gas connection to 99 household of Chorkhamara Village.

KAWAI

Plantation of 560 plants at 28 schools

Sport Activity for Youth

State level football tournament was organized at Chhipabarod, in which 11 district teams participated.

Celebrating World Environment Day

On June 5, 2014 World Environment Day was celebrated in which several people participated. Essay writing and painting competitions were organized for the students.

Support During Flood

Adani Foundation had provided timely support to the village people during floods last year benefitting more than 3000 people.

SURGUJA

Agriculture Farmers Training Program

During 2013-14, a training of farmers was conducted in collaboration with Adani Foundation and Department of Agriculture, Udaipur. Under the training program, 26 farmers from Salhi village were benefitted. Farmers were introduced on following points:

- Information and benefit from KCC (Kisan Credit Card)
- Different types of schemes from Agri. Dept. like Shakambhari Yojana, Small Irrigation Schemes, Soil Levelling and Sprinkler Pipe
- Effective agriculture practices and tools like rotator, wind flowing machine etc

SHG Formation

Women empowerment is the core integral area of each and every intervention. In this regard, the foundation team organized meetings with women in villages about the importance of self-help groups and its advantages. Various income generation methods such as integrated farming management, nursery plantation, poultry farming, pig farming etc. have been applied by women groups to become independent and sustainable.

Skill Development & Learning Center (SDLC)

Adani supported district skill development and learning centre situated in Ambikapur,

which, under National Rural Livelihood Mission (NRLM) aims to develop skills among rural youth. This SLDC centre gives training in various trades such as Motor Mechanic, Electrical fittings, Beauty Parlour course for women, and Hospitality skill for hotels, Sewing & Tailoring courses with having residential facility for both women and men.

ITI Training Course for Youth

ITI skill building program is the most effective initiative being run by AMPL & Adani Foundation to fight rural unemployment and ensure guaranteed job in an on-going project site. Under this initiative, 36 youth were trained in electrical wiring and binding of machines by an ITI Centre based at Ambikapur.

CHHINDWARA

An Initiative Towards Green

During 2013-14, Adani Foundation and Adani Pench Power Limited (APPL) undertook the distribution of T-shirts on Environment Day. They also distributed plants among the people of Thawariteka, Chausara and Dange Wani Pipariya to encourage them to have a green village and also, improve the environmental conditions on a whole.

A Silent Revolution, imbuing every aspiration, has transformed into a passionate journey.

India lives in her villages, not in her cities,
If the village perishes, India perishes too

– Mahatma Gandhi

Developing Rural Infrastructure, Meaningfully

Building valuable assets for the present and future generation requires both attention and vision. Attending to the immediate needs of the communities and envisioning at the same time is what we at Adani Foundation persistently strives for.

We invest in promotion, protection and upgradation of infrastructure and equipment. However, in order to make this an effective, sustainable and replicable initiative we ensure grassroots level participation by the community members. We ensure that any infrastructure development project should be responsive to the actual needs. Whether it is water harvesting structures or toilets or approach roads, we ensure that the final outcome meets the very purpose for which they are built.

Our efforts in this area have reaped benefits to the rural folks. This is an ongoing process which will find its own challenges and solutions, but has certainly contributed positively to the lives of people, albeit, silently.

Our Rural Infrastructure Development projects have a direct link to our other three important components viz. Education, Health and Sustainable Livelihood. Rather, all these three components are incomplete without the infrastructure development initiative. It

is crucial to not only build new structures but also to maintain them with ease and regularity. Rural Infrastructure Development projects, which are undertaken by Adani Foundation, focus on enhancing civic amenities and thus making lives better. Our projects include education, health and sanitation, drinking water, community based structures, water conservation and recharge structures. The process of planning, selecting and executing infrastructures is village centric. It aims at complementing government efforts towards a holistic and integrated development.

The foundation, in 2013-14, has designed, planned and built strong infrastructures for better education, community health, agriculture and living standards, after a conducting a proper need assessment.

MUNDRA

Concern for Today, Vision for Tomorrow

This year rural infrastructure development outreach covered 24 villages and 6 fishermen habitats, totalling to 20312 beneficiaries. At Mundra Taluka, 74 projects were accomplished out of which a total of 14 projects were related to fishermen habitat.

Infrastructure for Health Care

- **Medical Center Tunda Wandh-** A medical center was constructed to provide a proper space for medical check-up, treatment of patients, doctors' room and waiting space with sanitation facility.
- **Rural Clinic Upgrading-** Seven rural clinics at various villages of Mundra Taluka were updated in terms of repairing work and facilities for doctors and patients. These rural clinics provide basic health care and free medical check-up to people in remote village areas. Medical clinics were also set up at Tunda – Siracha, Luni – Vadala and Nana Kapaya.

Infrastructure for Education

- **Construction of Adani Vidyamandir, Bhadreshwar (AVM)-** Adani Vidya Mandir at Bhadreshwar was started to provide free education to the children from financially challenged families. Apart from imparting academic and co-curricular learning, Adani Foundation at Mundra has perfected this school through infrastructure support. The school's construction was started in 2012 and by February 2014, the building was ready to use. Several other new features were constructed such as parking shed, wash rooms, tree pits, playing equipment area, lawn area, dining room, water cooler installation, stage extension etc.
- **Construction of Primary School Building at Tunda -**

**Temporary Shelter for Fisherfolk
Community of Mundra**

The primary school educating close to 125 students of standard 1st to 7th was built on a new location as resolved by the Gram Panchayat. Compound wall and water tanks were also constructed.

- **Construction of additional classrooms and prayer hall -** A closed prayer hall, monsoon safe and capacitating 1200 people during village functions after school hours, was designed as per necessity of the Bhujpur Gram Panchayat. Prayer Hall of 23.90 x 11.25 m area was successfully constructed at Goersama.
- **Library Renovation -** Mundra Maharanakhangaraji library at Mundra was in need of renovation and furniture support. Utilization by senior citizens has increased and MITRA (Mundra Idealize Thinkers Reconstructive Association) has accepted responsibility of running the library after renovation.

Infrastructure for Agriculture

- **Gaushala Construction-** Two Gaushalas were constructed at two locations, namely, Zarpara and Gundala, with all facilities such as a fodder shed, cow shed, water trough and a surrounding compound wall.
- **Fodder Shed Construction -** Fodder sheds were constructed at Rampar and Tuna in order to facilitate fodder storage.

Infrastructure for Fisher Folk Community

- **Bandar Vistar Yojana** - Approximately 37150 Sq. m. sand filling was done; of which 5050 sq. m. at Old Bandar, 25500 sq. m. at Luni Bandar and 6600 sq. m. at Bavadi Bandar, were carried out so that fishermen at the local habitat have facilities for a smooth routine life.
- **Sughad Yojana**- A total of 24 toilets were constructed for cleanliness and sanitation of the fishermen community, especially women. This also helped create awareness related to health and hygiene. Rural drainage work was also carried out at Baroi, Mundra and Gundala.
- **Machhimar Awas Yojana**- A project titled 'Home Sweet Home' made possible appropriate shelters for the fishermen who reside near the coastline all year round except the off season. Shelters, equipped with basic facilities of a toilet and pure drinking water were constructed for living while fishing and to provide a healthy and hygienic residence. Of 140 total shelters, 120 were constructed at Old Bandar and 20 at Luni Bandar.
- **Machhimar Shudhh Jal Yojana**- Water tank platforms were constructed and tanks were

set up in order to provide clean potable drinking water to the community. Storage tanks and water supply lines were set up at Siracha, Wandi, Tunda Wandh and Bhadreshwar. Of five water tank platforms, three were constructed at Kutdi Bandar, one at Navinal Bandar and one at Old Bandar.

- **Machhimar Akshay Kiran Yojana**- Solar Light facilities were installed at fishermen residences on the coast to provide lighting facilities at night at Kutdi Bandar, Zarpara Bandar, Navinal Bandar, Motakapaya and Pragapar.
- **Machhimar Sugam Path Yojana**- Fishermen used to have problems of traveling from Vasahat to the village. To solve this issue and facilitate travel route, approach roads were constructed to Vasahat. As per requirement, GSB road, earthen road, metal road etc. were provided. Cement-concrete road was constructed at MotaKapaya and Siracha.
- **Vidya Deep Yojana**- Balvadi for kids of age 2.5 to 5 years was constructed from scratch at Zarpara and upgraded in Juna Bandar, Luni Bandar and Bavadi Bandar. Balwadi for the kids of fishermen communities were built to inculcate a sense of awareness about health, hygiene, cleanliness, discipline, regularity and importance of education at an early age.
- **Fish Market Construction**- Fish market was designed to hold 40 platforms made for selling purpose, 6 big shops with shed and one sanitation room with toilet facilities. The idea is to provide an appropriate space for sale of fish which will eventually result in fetching a good price for the fishes.

Other Infrastructure Improvements

- A cricket ground with a compound wall and a store room was made ready and available at Zarpara, Mundra, and Bhadreshwar to encourage sports related activities.
- A compound wall was constructed for the Samaj Bhavan at Zarpara.

HAZIRA

A Small Beginning, A Long Way to Go...

Adani Foundation organized a rural infrastructure development program in Hazira. The work undertaken is mainly related to health, education, drinking facilities and structure development like community hall, Gram Panchayat etc. The objectives of this program are to provide the basic facilities in villages and also to create qualitative infrastructure in the villages.

DAHEJ

Creating Support Structures...

Adani Foundation has taken significant steps to promote rural development by constructing several schools, public health centres, playgrounds, bridges, etc.

The ultimate objectives are:

- i) Bridging the gap of the villagers' demands and Schemes of Government.
- ii) Providing basic facilities to the community like drinking water, road etc.

A brief on them is as follows:

- Indira Aawas repairing work at Suva and Jageshwar
- Lakhababa Temple renovation
- Construction of New Panchayat building
- Construction of Crematorium
- Construction of Community Hall

TIRODA

For the Benefit of Agriculture

Deepening and Widening of Village Pond- During the year 2013-14, ten village ponds were deepened and widened to increase the storage capacity of the ponds. The ponds belong to Bhiwapur, Malpuri, Berdipar, Dhamnewada, Jamuniya, Kachewani, Chirekhani, Garada, Chorkhamara and Burbaspura. In these ten villages, 66177 cubic meters area of pond deepening was undertaken. Due to the increased capacity, the ground water table has risen which in turn has helped increase the water table in the well. The water conservation effort in the surrounding villages has raised the water table by 3- 4 feet in the surrounding villages.

Infrastructure for education

- **Construction of Anganwadi-** Two Anganwadis were constructed during the year 2013-14 in Garada and Bhiwapur villages.
- **Construction of Classroom and Hall-** One classroom with a hall was constructed in Tiroda and Gumadawada. Zila Parishad School Tiroda was one of the oldest schools of the area which was lying dilapidated but the government did not have sufficient

funds to construct the building. After the renovation, the enrolment in the school has increased by 100%. Similarly, construction of three classrooms with Kitchen shed was constructed in Jamuniya School.

- **Repairing of classrooms-** Adani Foundation took up the repairing/renovation work of the government school building of Thanegaon. This renovation has directly benefited nearly 194 students. A similar renovation work was taken up in new Ramatola and Tikaramtola, rehabilitated site. This renovation work is expected to directly benefit more than 150 students on both the hamlets.
- **Construction of Kitchen room-** A kitchen room was constructed in the Anganwadis of Mendipur and Burbaspura.

Other Infrastructure Upgrades

- **Repairing of Sabhamandap with toilet block-** Adani Foundation took the initiative for renovating the Sabhamandap of Thanegaon. A new toilet block has also been constructed in the same premise.
- **Construction of Sabha Mandap-** A Sabhamandap was constructed in Mendipur,

Piparjhari and Garada by Adani Foundation.

- **Construction of Shradhanjalished-** Adani Foundation took the initiative to construct the Shrandhali Shed in four villages namely Khairbodi, Kachewani, Mendipur and Bhiwapur.
- **Construction of Burning shed-** A burning shed was constructed in Khairbodi village.
- **Construction of Culvert-** Adani Foundation has constructed a culvert on approach road in Khairbodi village.
- **Construction of Road-** Addressing the request of the Gram Panchayat, Adani Foundation took the initiative to construct roads in Khairbodi, Kachewani, Kawalewada, Chikhali and Burbaspura village.
- **Construction of Community hall-** A Community Hall was costructed in Kawalewada village.
- **Beautification of Kashighat Area-** Kashighat in Garada village is a Pilgrimage site. The Kashighat Management Committee and Gram Panchayat requested for construction of Sabhamandap, fencing the campus and also pitching work of the bank of stream. Adani Foundation carried out construction

of the same. Also, the Foundation planted ample number of trees in the area.

- **Seating benches in the Villages-** Looking into the need of seating benches, Adani Foundation provided 271 benches in 22 villages. The benches were placed at such places where they are being used by the senior citizens and women.
- **Providing Drinking Water Facilities-** Adani Foundation installed 18 hand pumps by drilling bore wells.
- **Material Support for Future Tourism-** With an objective to develop a tourism site, 500 bags of cement and 3000 kg of iron is provided to the Future Tourism and Environment Development Group.
- **Master Plan of Water Conservation of 18 Villages-** An external agency was hired to prepare a master plan on the water conservation projects in the 18 villages of Tiroda. The team has submitted the preliminary estimated cost for each of the potential projects and recommendations with priority for each village in Master Plan document. Adani Foundation will take up these projects in the years to come.

KAWAI

Infrastructure for Education

- **Renovation of Toilets** – Some of the adopted schools lacked proper toilet facilities. These toilets were renovated and made usable by the Adani Foundation.
- **Backfilling and Leveling of Atru School Playground** – This ground at Atru was being used for several sports and cultural activities by the Govt. and for other events as well, but, it lacked leveling. Therefore, Adani Foundation took the initiative of leveling the Atru school playground. Now, the children use it in a better way, be it for their games or for their other forms of sports or cultural events.

Infrastructure for Community Health

- **Construction of PHC Ward in Kawai** – There was a lack of ward facility and the number of patients/sick people in Kawai was increasing

day by day. Therefore a PHC ward was constructed to ensure that people get proper treatment.

Other Infrastructure Works

- **Constructions of 16 Ghats at Parwan River Bank for Villagers** – People residing in Kawai often bathe and wash clothes on the banks of Parwan River. Adani Foundation therefore has constructed 16 ghats at Parwan river bank in order to make it easy for the village people to get on with their bathing and washing activities.
- **Construction of Two Minor Bridges at Baran** – The villages in the Baran District were facing extreme issues of transportation during monsoon season; hence, two minor bridges were constructed by the Adani Foundation, Kawai, in order to improve the villages' connectivity with other places.

SURGUJA

- **Rural Electrification Initiative:** AMPL & Adani Foundation started their interventions under the component of rural infrastructure development to develop existing basic services in projects that are affecting the villages broadly. In the first phase, electrification work connected villages namely Parsa & Salhi with domestic electricity supply in each and every household. It is important to note that the rural electrification initiative covered the total number of households targeted in the villages for electric supply. Both the villages were connected with a transformer and a low tension wire for electrical supplies. Though the first round was catered to two villages, the next phase has looked at two more villages of project affected areas hitherto the rest of the villages would be electrified in the time to come.

- **Sanitation Unit Construction:** Under the sanitation component of CSR initiative, individual household level toilets were constructed in Parsa village only. In the intervention, a total of 256 individual household level toilets were constructed. However, the usage of individual household toilets as well as the community toilets in both Parsa and Salhi village was getting questioned because of various myths attached to it. Thus, several awareness workshops as well as campaigns and trainings were organized to improve the attitude as this may bring positive progress in the scenarios of sanitation and hygiene of the villages.

- **Drinking Water Supply:** In the year 2013-2014, 47 water hand pumps were constructed and dug in seven villages. Further, water tankers are now used to carry water from one place to another. The size of the tanker varies from 3000 litres of water to 7000 litres of water. It is significant to mention that four tankers are used to supply water to the villages. The total trip made by the tanker to Parsa and Salhi villages depends on the shortage of water. Each 5000 litre capacity water tanker comprises 250 buckets of water assuming every bucket has a capacity of 20 litres of water. Thus, at least 125 families are given supply of two buckets of drinking water each.

- **Road Construction:** The initiative started with the construction of village level roads by AMPL and Adani Foundation. Two project affected villages such as Salhi and Parsa are now connected with Charcoal/Damar or pucca road.

CHHINDWARA

Adani Foundation and Adani Pench Power Limited (APPL) undertook the following activities in Chhindwara and successfully completed it

- Pond cleaning work in Thawariteka and Chausara
- Purchase, transportation and fixing of seating RCC benches in surrounding villages
- Construction of random rubble masonry retaining wall at Dagawani pipariya village
- Playground preparation of High school at Thawariteka village
- Service for waterproofing on the terrace of Chausara Primary School Building
- Execution of barbed wire fencing periphery of Hanuman Mandir at Hiverkhedi village

It's the action, not the fruit of the action, that's important. You have to do the right thing. It may not be in your power, may not be in your time, that there'll be any fruit. But that doesn't mean you stop doing the right thing. You may never know what results come from your action. But if you do nothing, there will be no result. – Mahatma Gandhi

INDEPENDENT AUDITORS' REPORT

Name of the Public Charitable Trust – Adani Foundation **Registration No. F:5439(A'BAD)**

1. REPORT ON THE FINANCIAL STATEMENTS:

We have audited the accompanying financial statements of **Adani Foundation**, which comprise the Balance Sheet as at **March 31, 2014** and Income and Expenditure Account for the year then ended, and a summary of significant accounting policies and other explanatory information.

2. MANAGEMENT RESPONSIBILITY FOR THE FINANCIAL STATEMENTS:

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the trust in accordance with The Bombay Public Trust Act, 1950. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that a true and fair view and are free from material misstatement, whether due to fraud or error.

3. AUDITOR'S RESPONSIBILITY:

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to, design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our audit opinion.
