Power Revolution through the concept of Village Development by CSR of Adani UPCL

Udupi Power Corporation Limited has set-up and operating 2 units of 600 MW in 590 acres of Yellur and Santuru villages in Udupi District. UPCL, in addition to the support for Health, Education and various basic infrastructure facilities being provided in the surrounding villages, has created Green Revolution in the villages and has created special revolution in the electricity generation.

UPCL is the first Independent Power Producer which is producing electricity with 100% imported coal. This imported coal will have only 3 – 5% of fly ash content. The coal is being imported from world’s renowned mining companies like Glencore, Adaro, Banpu situated in the countries of Australia and Indonesia. The fly ash generated in the UPCL plant is being utilized by Cement manufacturing units.

Adani Group, which is one of the country’s leading business houses and pioneer in the power generation, after taking over UPCL during April 2015, UPCL has become 100% subsidiary of Adani Power Limited. As on date Adani is having installed capacity of totally 11,040 MW in the States of Karnataka, Gujarat, Maharashtra Rajasthan and Chattisgarh. Adani Power Limited has commissioned 660 MW units in Mudra of Gujarat District and is the first Super Critical Power Plant.

With the take-over of UPCL by Adani it has extended its businesses in South India both in thermal power sector and Renewable Energy sector. Adani Group, after taking over UPCL, is giving importance to the overall development of plant and it has installed latest technologies to protect the surrounding environment while generating the electricity.

Vast Development: UPCL, after coming under Adani Group, is striving for the overall development of surrounding villages and special concern is being given to the environment in addition to the execution of CSR activities. Under CSR scheme, UPCL is executing development works in association with Adani Foundation. Adani UPCL is executing its CSR activities in the field of Education, Health, Rural Infrastructure Development, Sports & Cultural event. It is executing its CSR activities in the surrounding villages like Yellur, Mudarangadi, Palimar, Padubidri, Tenka, Bada, Belapu, Inna, Hejamadi and Kutyar. Totally in 30 villages UPCL is executing development works under its CSR.

Environment Protection: UPCL is committed to protect environment and maintain the green environment. It is has installed latest technological devices to protect the environment. More than 5 lakhs saplings have been planted inside the plant.
premises which mainly include Ashoka, Neem, Mahagani, Honne, Bette, Remja, Cashew. The ash dyke area situated in Santuru village at 110 acres has been now converted as plantation area. UPCL has distributed totally 25,000 saplings to nearly 10,000 students and 1,100 teachers.

**Social Face:** UPCL has initiated UDAAN programme and this UDAAN programme is the vision of Adani Group’s Chairman Gautam Adani. Under this programme, the students studying in the surrounding High Schools and Colleges were invited and they opportunity is given to them to understand the process of power plant operation. Till date nearly 11000 students and 1100 teachers have visited UPCL plant and have gained knowledge under UDAAN programme. UPCL, to promote education to the students of rural area, is extending several benefits. In every academic year, nearly 8000 students studying in surrounding 80 Government Kannada Medium schools have been distributed with education kits. Scholarships are being given to the students of 5th Standard to 10th Standard studying in surrounding schools. Every academic, nearly 300 students from 80 Government and Government aided schools are being benefitted from the scholarship. In addition to this, UPCL in hands with Adani Foundation, is extending scholarship benefits to students residing near plant and studying in PUC, Degree, Engineering course, Medical course, Diploma and other higher educations and who have secured more than 70%.

In addition to the grant of Rs. 1 lakh paid to each of 302 Kairampani fishermen families for the betterment of livelihood Adani UPCL has declared grant and paid for the construction of Toilets in Government Schools, Installation of CCTV Camera, Installation of Solar lighting in Government Schools, Potable Drinking water facility to the school students, Adani Mobile Health Service, Mega Health Check-up camps, Medical assistance to the needy, Blood donation camp – GoRed, Swachhh Bharat Abhiyaan – GoClean, Setting-up of Safe Drinking Water Plant, Rural Infrastructure Development, Promoting Rural Sports and Cultural activities, Grant to Udupi District Police, Grant to Udupi District Bharat Scouts & Guides, Developments to Rehabilitation Centre, Lakes development. Nearly 70% of the employees are local and even the preference will be given for employing locals after project expansion. Nearly 9000 villagers from Yellur and Mudarangadi Grama Panchayat have been distributed with Adani Aarogya Cards. This Aarogya Card will enable all the villagers irrespective of age factor to avail cash-less treatment in network hospitals. Subject to the conditions of Insurance Policy features, villagers can avail cash-less treatment worth Rs. 50,000/-.
During the Global Investors Meet Adani UPCL has signed Memorandum of Understanding with State Government for its Project expansion of 2x800 MW. The expansion will take place in the existing plant premises in Yellur and Santuru villages in a land area of 728 acres. The land acquisition is in process and the Public Hearing has been concluded. Company’s Joint President Kishore Alva has told that soon the expansion activities would be taken-up by UPCL.

The land acquisition process of 168.10 acres in Yellur village is in final stage, the project affected families are being paid with the land compensation of Rs. 40 lakhs per acre in addition to the appreciated structure value, horticulture and forest trees payment. One employment to each of the family and opportunity for second employment in the same family would be considered based on the educational qualification. The senior citizens would be covered with the Insurance. These are all the facilities being given to project affected families, Kishore explained.

The electricity generated in UPCL plant are being transmitted to PGCIL Grid in Hassan and Sub-Station at Kemmar in Karkala Taluk through 400 kV and 220 kV transmission lines. The electricity is being supplied to 5 Electricity Companies (ESCOMs) owned by the Government of Karnataka i.e., MESCOM, BESCOM, GESCOM, HESCOM & CESCOM. UPCL is generating 1,200 MW and nearly 28% of the total requirement of electricity of entire Karnataka State is met by Adani UPCL, out of which 48% is supplied to Bangalore, 19% to Hubli, 14% to Gulbarga, 11% to Mysore and 8% to Mangalore.
