Udaan Progress Report | June 2022 - March 2023 | Volume 1 | www.projectudaan.in

“The vision behind this project is to create a pool of inspired young minds for nation building at a global scale.”

About Project

Udaan is a special project inspired by the life-changing story of Mr. Gautam Adani. As a child, he had visited the Kandla port in Gujarat, and after looking at the expanse of the port, he dreamt of having his own port one day. The rest is history. Under this project, exposure tours are organized wherein school, college students, faculties, employees from corporates are given a chance to visit the Adani Group facilities. Under this project, services are absolutely-free of cost for government schools.

Vision

To create a pool of inspired young minds for nation building at a global scale.

Mission

To motivate young students to dream big by exposing them to world-class industrial facilities.

Executive Director
Adani Foundation

At the Adani Foundation, education lies at the very heart of the work we do and project Udaan symbolises just that. Our sincere hope is that the students who visit the Adani Group facilities become firm believers in the fact that one can dream without boundaries and go after them with full conviction. We are also increasing the number of sites and educational institutes so more and more students can take advantage of these awe-inspiring visits, become curious learners and future nation builders.
